

ABSTRACT

The invention is a multifunctional law enforcement tool, which preferably includes several of the tools needed by law enforcement and security personnel. In one embodiment the multifunctional tool comprising a flashlight, stun gun, deterrent spray, glass breaker, I.D. holder, deterrent spray taser and cartridge housings. The cartridge housings allow the user to fire non-lethal rounds such as taser, bean bag, rubber bullets, balls and other projectiles. It may also fire tactical rounds such as colored smoke, breach rounds and concussion rounds. The cartridge housings may also house other battery powered devices such as cameras, audio and video recorders.

In a second embodiment the cartridge housings are removed for a lighter more compact unit.
